# Do RSL Qualifications work?

Global pop star Ed Sheeran thinks so!

He studied our Level 4 Creative Practitioners qualification.

Ed has gone on to sell well over 150 million records.

We still work with Ed. In 2023 we supported his North American tour by creating interactive e-books for his fans to learn some of his songs.

We award  
over 100,000  
Certifications  
annually across  
60 countries

# Who is Rockscool?

In 1991 Rockscool launched the very first graded rock music exams for electric guitar, bass and drums. It was a radical breakthrough (despite the performance pieces being delivered on cassette tapes!), offering rock and pop musicians the same grading structure that had always been available to classically trained musicians.

Through the efforts of a dedicated team with the goal of providing contemporary music education across the globe, Rockscool now examines over 100,000 musicians and performers every year.
