Chartered Institute of Architectural Technologists

James Banks CMgr FCMI
Head of Membership

Alex Naraian PPCIAT, FCIAT
Chartered Architectural Technologist

CIAT

Chartered Architectural Technologists

- Chartered Architectural Technologists are leaders of technological design, forming the link between concept, innovation, and realisation.

- They are qualified designers who lead a range of built environment projects, large and small.

- 'Chartered Architectural Technologist' is a protected descriptor, designation and regulated professional qualification that recognises an individual's skills, knowledge, experience and behaviours.
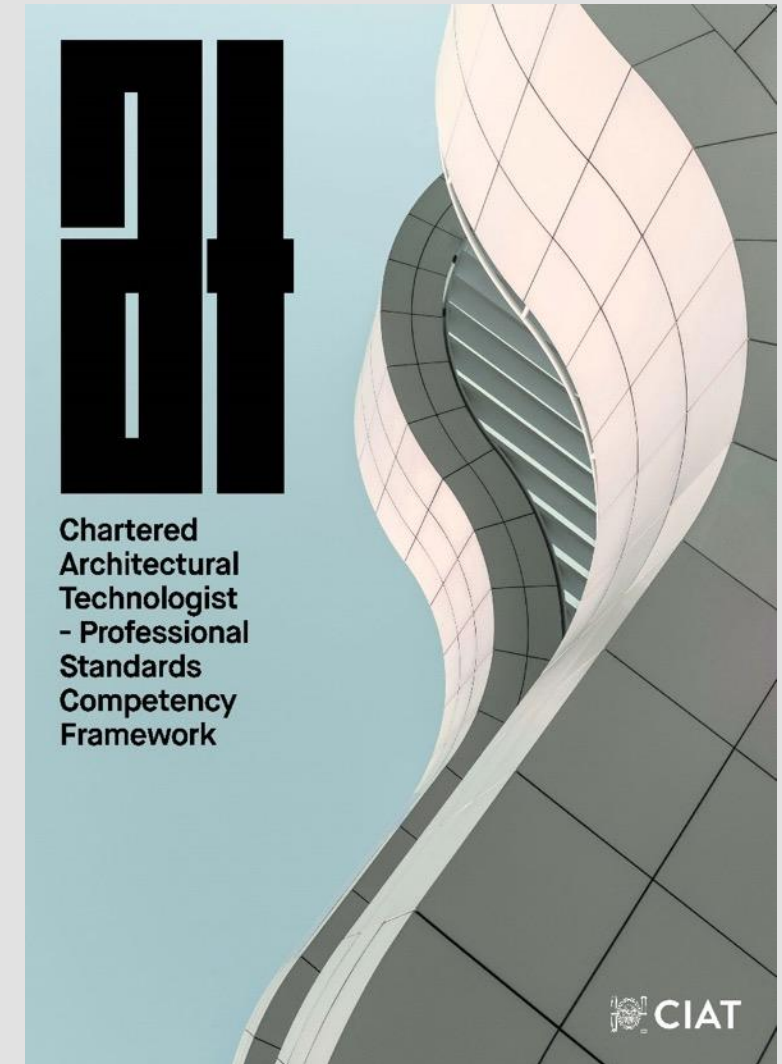

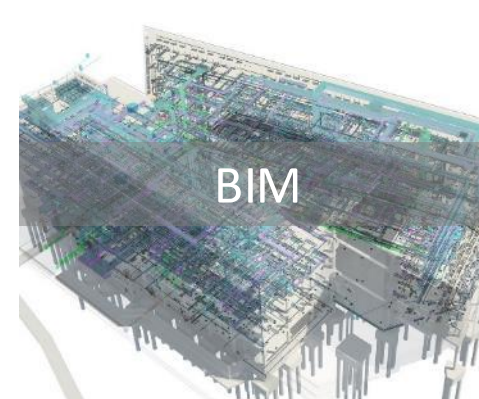

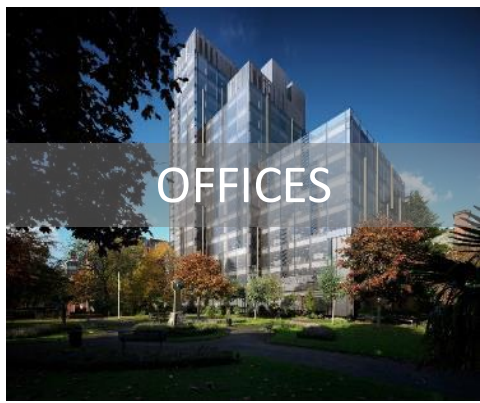

CIAT

Attaining Chartered Membership

Achieved by completing CIAT's **MCIAT Professional Assessment** &
Measured against the Institute's Professional Standards Competency Framework

- **Stage 1 Educational Standards – Assessment of knowledge**
    CIAT Accredited Honours/Masters degree or equivalent (based on
    Quality Assurance Agency Subject Benchmark Statement in discipline)

- **Stage 2 Practice Standards - Assessment of work experience**
    Designing, Managing, Practising and Developing (self)

- **Stage 3 Professional Standards**
    Professional Interview

*Chartered Membership is globally recognised standard of excellence which
benchmarks a professional's skills, knowledge competence and professionalism*
