The Global Digital & Technology Skills Shortage

Over half (54%) of the organisations agreed that the digital talent gap is hampering their digital transformation programs.

Overall, 29% of employees believe their skill set is redundant now or will be in the next 1–2 years.

51% of employees lack hard digital skills (globally).

It's estimated that by 2030, technology, media and telecommunications (TMT) industries will be faced with a global skills gap of 4.3 million people.

In total, these shortages are predicted to cost the TMT industries \$449.7 billion in unrealised revenue.

Qualifications Cross Borders

Our international success comes from identifying opportunities to enable skills development and working with local partners to address the need.

UK

Partnerships with further education colleges, universities, and local authorities have enabled learners to access funded qualifications & training. Gateway Qualifications ensure compliance with relevant awarding authorities.

Sweden

Through collaboration with an NGO we identified a funding instrument – secured approval for delivery. New data qualifications just launched.

Ireland

Through collaboration with local vocational authorities, Code Institute has delivered qualifications to learners seeking progression and employment in Ireland.

Our Learning Platform

Designed to empower learners anywhere to acquire skills for progression in education or work.

We are launching the newest version this month.

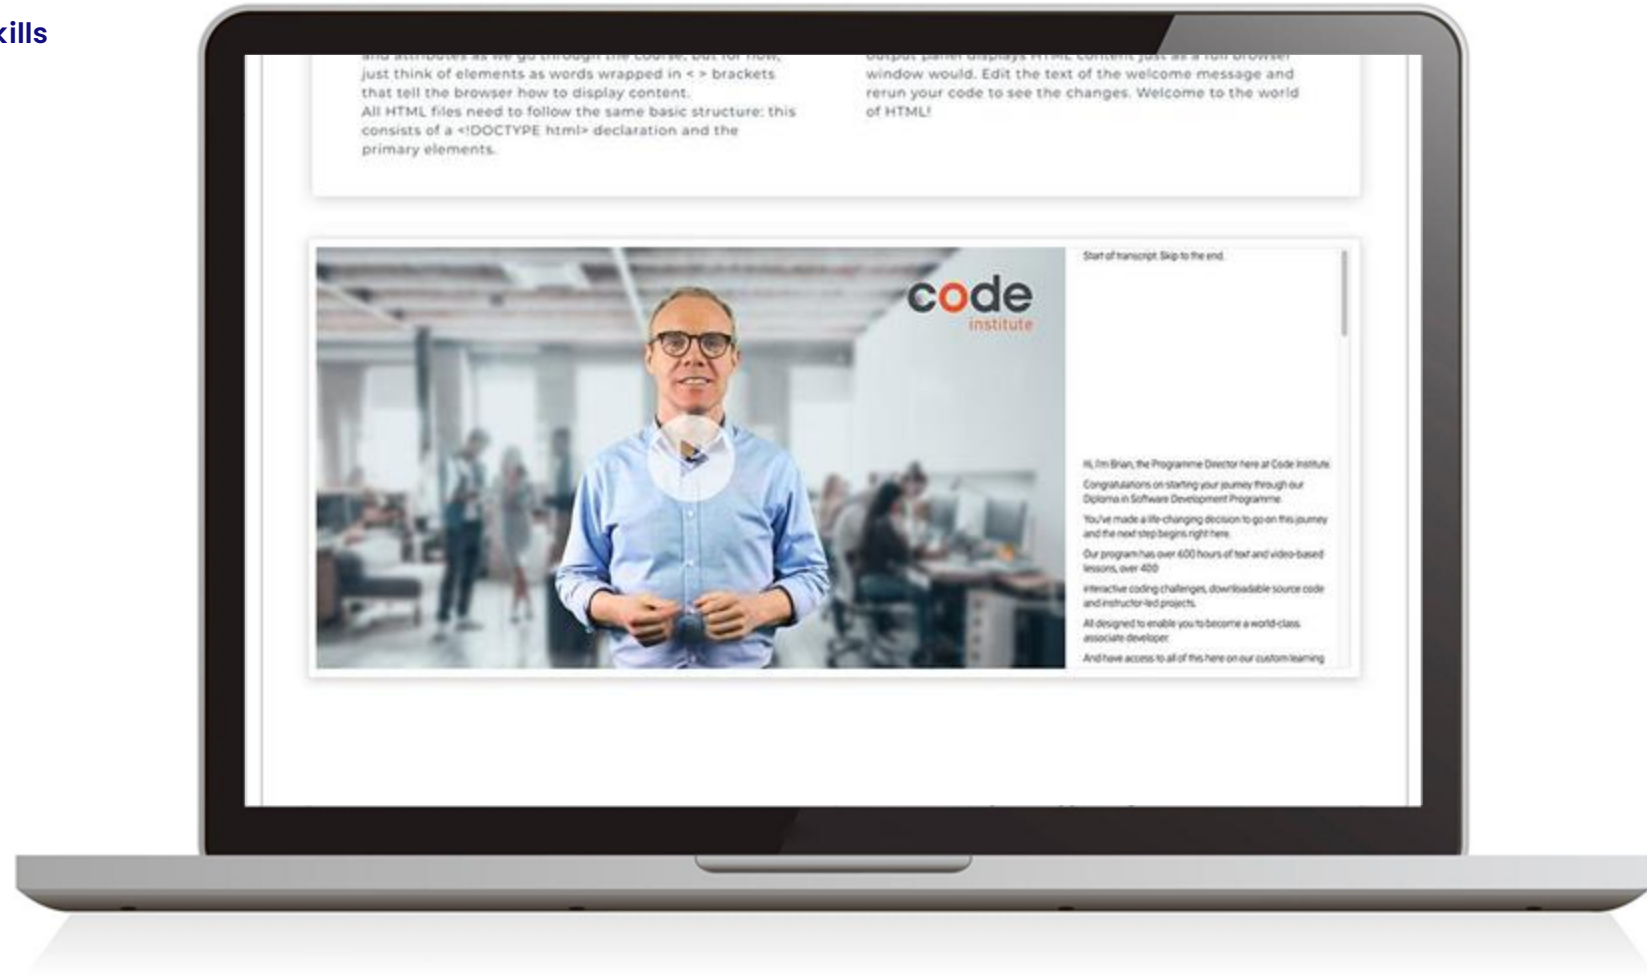

Industry-led content

Tutor led & social Learning

Project-based outcomes

How we can partner

We have multiple ways of working

Whether you are a training provider, employer, NGO, or governmental body, we have different models that can work with you.

€ Identify relevant means of funding

We collaborate to identify the most relevant means of funding. Whether that is government-based, employer, or full cost.

○ Code Institute deliver to learners in your region

We partner, and collaborate to identify learners suitable for the training. Code Institute delivers, Gateway Qualifications certifies.

💻 You deliver using our platform

We can partner with you and enable you to use our platform to deliver qualifications.
