“I hate the term soft skills.
There’s nothing soft about them”.

*Simon Sinek,
author, and public speaker*

What percentage of job success comes from having well developed soft and people skills?

85% of job success comes from having well-developed soft and people skills

only 15% of job success comes from technical skills and knowledge (hard skill)

Emotional Intelligence

“If your emotional abilities aren’t in hand,
if you don’t have self-awareness,
if you are not able to manage your
distressing emotions,
if you can’t have empathy and have
effective relationships,
then no matter how smart you are
you are not going to get very far”.

*Daniel Goleman,
psychologist and author,*
