HOW TO USE AND INLEARNING AND EDUCATION

REIMAGINE HOW YOU WORK, LEARN AND EDUCATE WITH AI

We find that many tutors, trainers and teachers are reluctant to use AI tools to enhance their work.

Or they are limiting themselves to content creation as the obvious benefit.

Al is reshaping the world of education and learning. From planning lessons to using Al as a thought partner and digital colleague, it's changing how we design and deliver learning experiences.

This practical programme is ideal for those designing and delivering learning, training, education and assessment. It gives space to explore, experiment and build confidence so you can harness AI with purpose.

UNLOCK THE POTENTIAL OF AI IN LEARNING AND EDUCATION

Boosting your productivity – Use
Al to speed up content creation,
simplify admin, and support
planning.

2

Sharpening up your critical thinking

– Learn how to use AI to refine your ideas, evaluate your work, and challenge your own assumptions.

Creating more confidence – Move beyond the obvious and experiment with fresh, innovative ways to apply Al every day.

You'll have practical tools, a confident mindset, and a clearer idea of what's possible.

module 1

CONTENT CREATION

SET THE FOUNDATION

This module is all about building confidence, curiosity, and capability. You'll:

- Reflect on your mindset around AI and uncover its potential in your role.
- Discover how AI can support idea generation, planning, and productivity.
- Learn a simple, effective framework to get better, faster results from tools like ChatGPT and Microsoft Copilot.
 - Practice designing real content, objectives, sessions, and resources with AI as your own assistant and digital colleague.

module 2

GET **CREATIVE**

TIME TO THINK BIGGER

This module will stretch your imagination and inspire new ways of working. You'll:

Use ChatGPT or Microsoft Copilot to enhance, critique, and adapt existing content.

Turn data into action with AI powered evaluation summaries.

Experiment with generating visuals that bring your learning to life.

"Hayley delivered this AI training for us and we all came away buzzing and more importantly there are lots of examples of team members applying that learning already.

We highly recommend this programme."

NICHOLAS JOHNSTON, CHIEF EXECUTIVE, EDUCATION COMPETENCIES CONSORTIUM

"A huge thanks to you for the training that you delivered to the Team this week on Al.

Everyone thoroughly enjoyed the sessions and really appreciated the practical and non-techy approach to the topic.

And I've already seen it being put into action to accomplish a few tasks that we've been battling with for a while."

ALEX O'ROURKE, CO-FOUNDER, LOCKSMITH LTD

AI FOR THE AVERAGE JOE

Making the complex, simple in Generative Al

AI IS THE WORST IT'LL BE RIGHT NOW...

JUST LET THAT SINK IN.

Generative Artificial Intelligence (AI) is changing the world, and there is no doubt that most of us are using AI in our roles now.

Most people in this space will be non-experts. Knowing this, it's key that you engage the hearts and minds of your teams, clients, learners, and peers as part of your journey to Al adoption.

There is no silver bullet when it comes to Al.

So, what are you doing about it?

AI IN OUR LIVES

BUILD TRUST AND CONFIDENCE IN YOUR TEAMS

Forward-thinking organisations are embracing the benefits Al brings to their people and performance and enabling their teams to use it confidently.

They're enabling behaviours and digital ethics, supporting managers to coach the required behaviours, and providing the experience for teams to build the underpinning skills.

But these are not just workplace skills, they are human distinctive skills, that we will be using every day, in our personal and professional lives.

We need a combination of people, infrastructure and Al to be successful.

AI FOR THE AVERAGE JOE SKILLS FOR EVERYONE

Interactive Keynote

Practical Workshop

Podcast Show

Interactive Keynote

AI FOR THE AVERAGE JOE INTERACTIVE KEYNOTE

Winning Hearts and Minds

This interactive, innovative, and energetic keynote address provides new ideas and practical takeaways for using Gen AI in your organisation or business.

We explain why winning the hearts and minds of your teams is fundamental to the adoption of Gen AI and explore the wider considerations of future skills to define the human/robot relationship.

Be ready to be challenged, have fun and think about your engagement in this revolutionary technology in a whole different way.

By the end of the session, you'll understand:

- How to engage everyone in your organisation with Al
- What skills you need to develop for success in using Al and developing yourselves during the new technological revolution
- How to move forward with a plan of action and next steps

Practical Workshop

AI FOR THE AVERAGE JOE WORKSHOP

Creativity and Skills

The workshop brings to life some of the concepts and questions outlined in our keynote address. Using the Quantum Rise engagement methodology, we provide ways to reduce time, improve outcomes and be more productive using Al.

By the end of the session, you'll be able to:

- Explore ways to build sustainable Al practices in both personal and professional settings
- 2 Use Gen Al apps in fun and practical ways that save you time and money
- Share how you are already using Al and see examples in other sectors

AI FOR THE AVERAGE JOE PODCAST SHOW

Further Insight

The successful first season of our podcast show offers new ways of thinking about Gen Al, additional learning and CPD following the delivery of our keynote address and practical session.

Each episode shares further insight, building confidence in participants so they keep going with their newly learned skills through practical demonstrations and interviews with expert guests.

Barry White, Executive Coach, shares his journey setting up his new coaching business using ChatGRT and Bing AI in SI Ep 3

Quantum Rise has led the way in engagement in generative artificial intelligence and future skills for some time now and excel at bringing excitement and inspiration to this area. They look at this innovation through the people lens, considering what is needed in how to win the hearts and minds of our teams, learners, clients, and organisations, which makes this particularly refreshing and digestible.

Erica is a very easy listening professional speaker, with an added fizz of energy and enthusiasm for creative disruption...

Quantum Rise represents vision and innovation to challenge the traditional and typical.

Dr Mandy Crawford-Lee, Chief Executive, University Vocational Awards Council

AI IS NOT ABOUT TECH

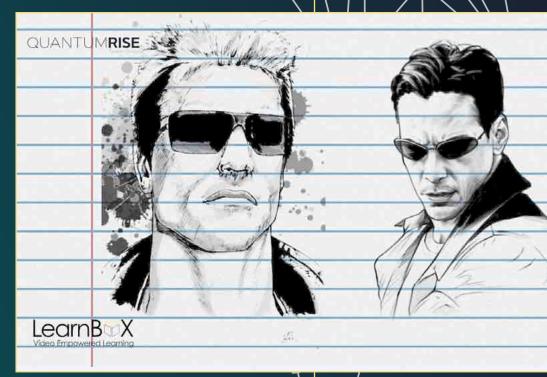

IT'S ABOUT PEOPLE, CHANGE, SKILLS AND EMOTIONS

We grew up with The Terminator franchise, where Skynet becomes self-aware and builds terminators to eradicate the human race.

Or in The Matrix Trilogy when the machine world drives the last, remaining humans to Zion for their last stand.

These examples ALWAYS come up as people have a genuine fear. It is not a fear of Judgment Day coming, but it's certainly a fear of the implications of Al.

And that's because people do not know enough about it. And when we don't know enough about things, we fill in the gaps and generally lead with emotion, not logic. We default to fight or flight, and it takes more effort to feel OK about things.

HOW ARE ENGAGIN YOUR PEC GENERAT

What are your plans to get to use large language nad ethical way?

Do you need an easy we interactive, engaging a learning and need a styleading the market in in learning quality?

WELCOME TO YOUR AI REVOLUTION

DIAL UP YOUR DIGITAL SKILLS

Virtual facilitation with impact

WHATIS DIALUP DIGITAL?

Dial Up Digital is a CPD Standards Office accredited programme, delivered in partnership with two of the industry's leading online facilitation organisations - 123 People Development and Quantum Rise Talent Group.

Learn how to design and deliver innovative and engaging online learning events to drive performance for your business or customers through 9 hours of accredited training and get immediate takeaways to enhance your practice as you learn.

Building your own confidence to bring the flow of face to face delivery to a virtual space will help your learners engage with your content and the wider learning experience, in turn developing their skills and changing their behaviours and attitudes

WHAT TO EXPECT

1.

A highly effective, CPD accredited upskilling programme using evidence-based best practice from industry leaders. 2.

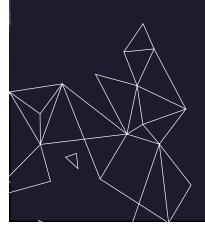

Quickly get to grips with the skills and competencies you need to design and deliver innovative and engaging online events. 3.

Professionalise your practice immediately. 4.

Develop essential facilitation skills in the minimum time required away from your workplace.

5.

An interactive, immersive programme designed by three of the UK's top virtual learning facilitators with over 20 years' experience between them.

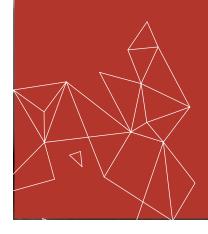

YOU'LL SEE MEASURABLE RESULTS THROUGH YOUR IMPROVED SKILLS

() core

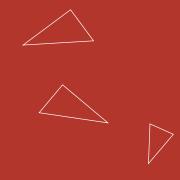

DIAL UP YOUR DIGITAL SKILLS

Q core

- Identify the benefits and challenges of online learning
- Describe the skills, knowledge and behaviours required to be ar exceptional online facilitator.
- Explore the functionality available when creating interaction within an online platform.
- Summarise and practice the practical skills required to manage technology.
- Facilitate a 10-minute mini teac back session live using the skills learnt in the workshop.

OUTLINE

pre-work

Complete a personal online self-assessment

- Visual stimulation
- Designing with PowerPoint when it doesn't look like PowerPoint
- Session plan

module 4 TEACH BACK:

- 15 minute micro teach
- Reflections
- Feedback
- Takeaways

We were delighted to work with Quantum Rise as part of our investment in our L&D team at Bupa Dental Care. Like so many others, we had pivoted significant elements of our learning offer to a digital delivery space and were keen to update this from a learner perspective for the year ahead.

Quantum Rise stood out for us in terms of the way they partnered me to get to know our business and team, and in customising the Digital Dial Up Masterclasses to our needs. The facilitator was an excellent throughout the programme; she enabled some excellent skills, conversations, and collaboration with the team. After each session, the team were energised and confident to put their ideas and learning into practice, and they really stood out in terms of the quality of design and delivery.

The Quantum Rise programme was a real success for us, and I would highly recommend it."

HOLLY HURKETT, HEAD OF TALENT, LEARNING AND DEVELOPMENT AT BUPA DENTAL CARE

Dental Care

WHY IS IMPORTANT?

CPD ensures that you and your knowledge stay up to date with current industry trends and best practices. Through CPD, you'll develop and improve the skills you need to perform in a professional context, deliver exceptional customer service and be an invaluable asset to your team

CPD can help you continue to make a meaningful contribution to your team. You'll become more effective at work which can help to advance your career. It can lead to other people's increased confidence in you as a professional, but also your profession as a whole.

CPD can open you up to new possibilities, new knowledge and new skill areas, which helps you stay interested in your work and you stay interesting to customers, colleagues and potential employers.

WHY DID WE CHOOSE

The CPD Standards Office accreditation is evidence based, which means it can provide credibility in a way that other accreditations and qualifications can't. They know the field of CPD inside out and they work with their community of providers to improve CPD on an ongoing basis.

BOOK YOUR PLACE: CORE: £995+VAT PER PERSON MASTER: £1295+VAT PER PERSON

hello@quantumrise.co.uk

We look forward to having you join our network of best practice facilitators and dialling it up to the next level!

QUANTUMRISE Talent Group

HOW TO DESIGN AND DELIVER A GREAT ONLINE TRAINING SESSION

We find that many trainers and tutors access **around 20%** of the available techniques and technology for great online design and delivery.

The Quantum Rise methodology is to design exclusively for the virtual learning world, whilst embedding a new mindset and skillset which includes using external websites, rotational whiteboards, polling sites and immersive activities.

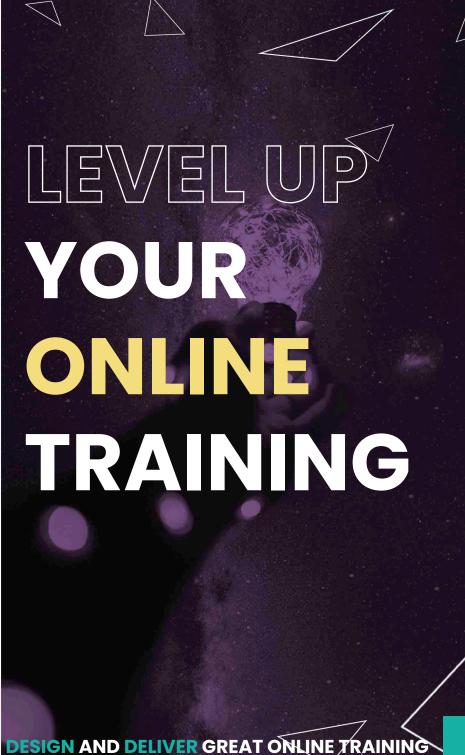

This drives knowledge retention **up to 65%,** alongside learner motivation and progression, on learning programmes and qualifications, as the learning is applicable, practical, creative and engaging.

Our certified facilitators will provide you with the tools you need to create and deliver amazing online training.

This programme introduces you to all the key aspects of great online design and delivery and offers you the opportunity to practice what you've learnt in a safe environment.

The programme consists of 3 modules and a total of 6 hours which provides the perfect opportunity for those who are new, or those who wish to add more tips and tools to their virtual practice, and get some expert feedback from certified virtual facilitators.

It's perfect for groups of trainers and tutors who wish to build on self-taught practice and are looking to wow their attendees with new tech, confidence and skill.

DRIVING ENGAGEMENT, CREATIVITY AND INTERACTION

By the end of the session you will be able to drive up your online teaching and training by:

Using a range of tools to help increase the engagement, creativity and interaction in online virtual classrooms.

2

Planning and designing more effective and engaging virtual sessions and meetings.

Presenting and applying newly acquired skills and receive feedback on your online practice.

4

Harnassing specific feedback and development opportunities, for continuous professional development.

module 1 MAXIMISING YOUR ONLINE ENGAGEMENT

This is a comprehensive, interactive module which takes you through each of the engagement tools and gives you an opportunity to increase engagement, creativity and interaction when delivering online sessions.

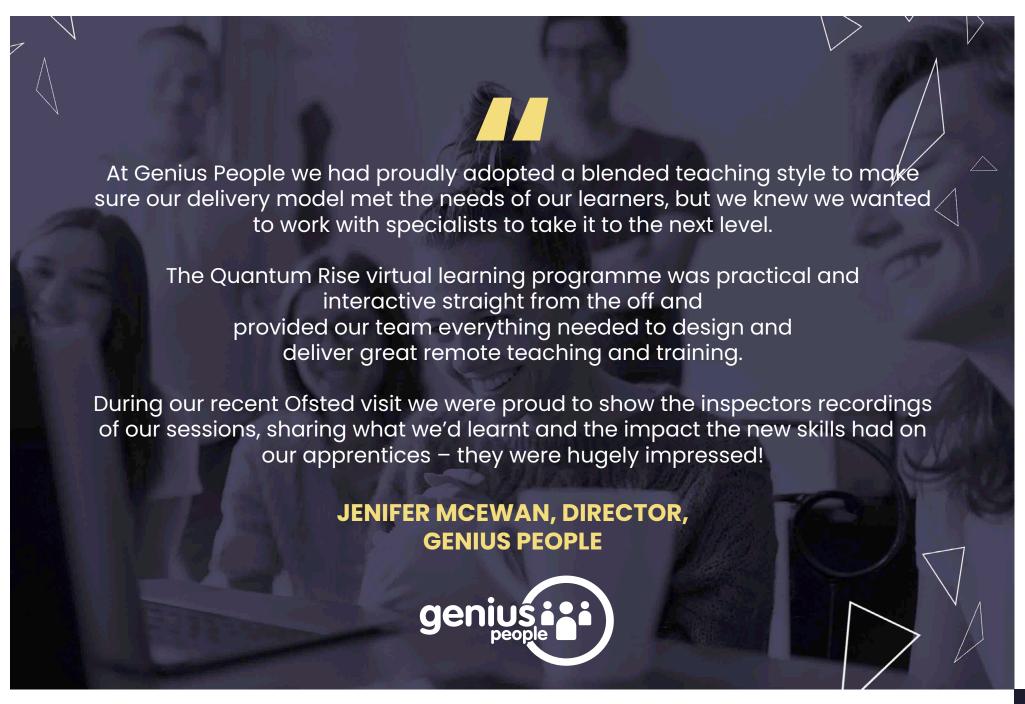

module 2 DESIGNING YOUR ONLINE SESSION

This module focusses on the core design principles for an effective, engaging, outcome driven live online training session, including visuals, slide design, virtual considerations and integrating media, all underpinned by the principles which increase knowledge recall.

module 3 MICROTEACH AND FEEDBACK

You will get the chance to deliver a short session and receive expert feedback on your content, skill and delivery from an expert, certified online facilitator.
